

FieldServer ENOTE

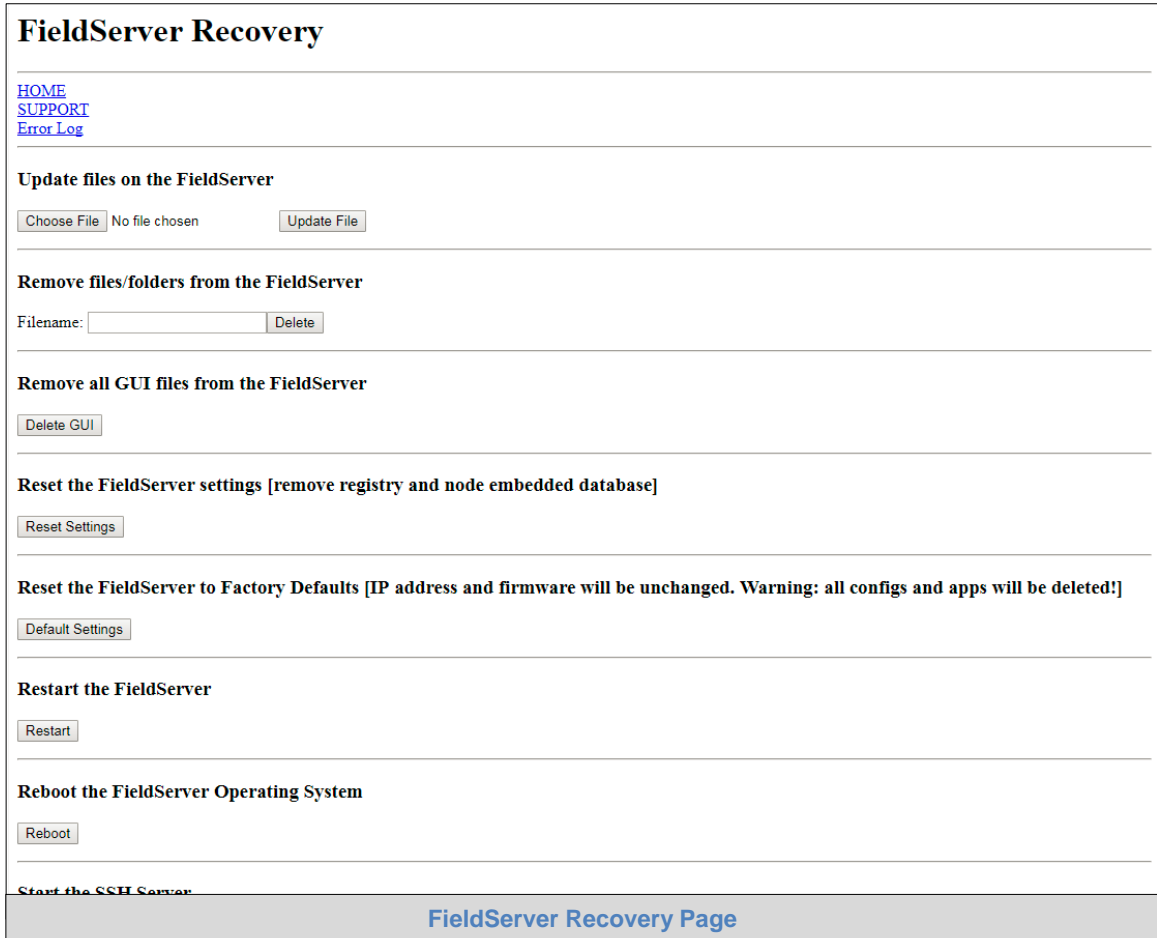

Downloading Applications to the FieldServer

Document Revision: 2.A
Date: 3/18
T18006

1 APPLICATION DOWNLOAD INSTRUCTIONS

The instructions below will explain how to download applications to a FieldServer product.

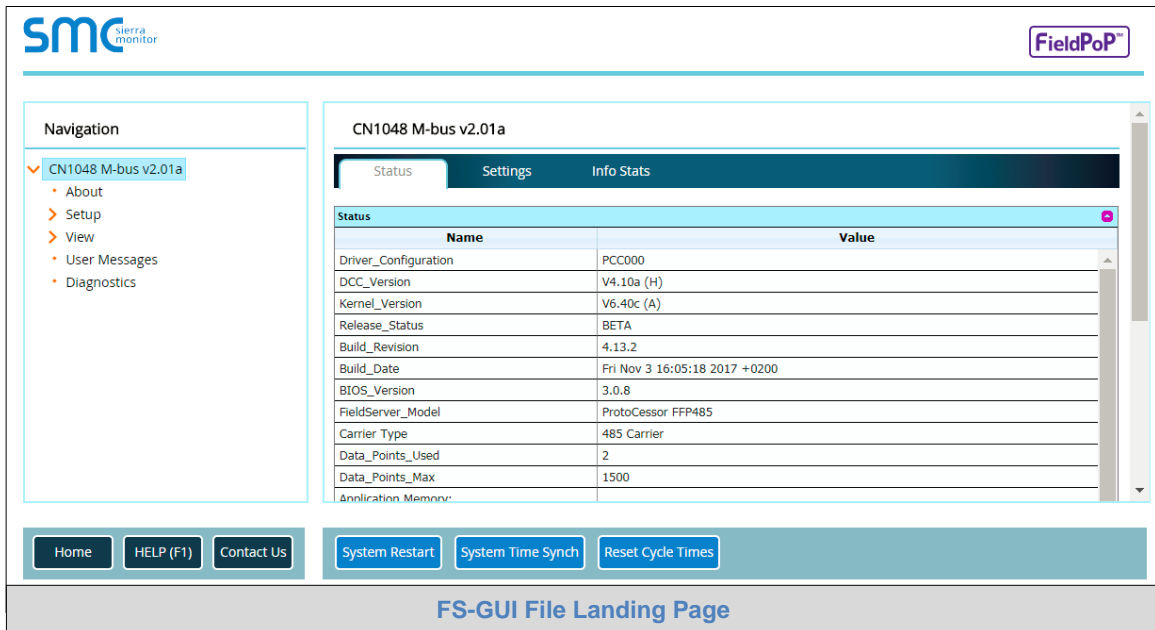

- Save the .img file provided by Sierra Monitor onto the local PC.
- Open a web browser, and in the address bar, enter the following:
[FieldServer IP Address]/recovery.cgi
 - Example: 192.168.2.101/recovery.cgi
- Once on the FieldServer Recovery page, click on the Default Settings button as seen in the image below.

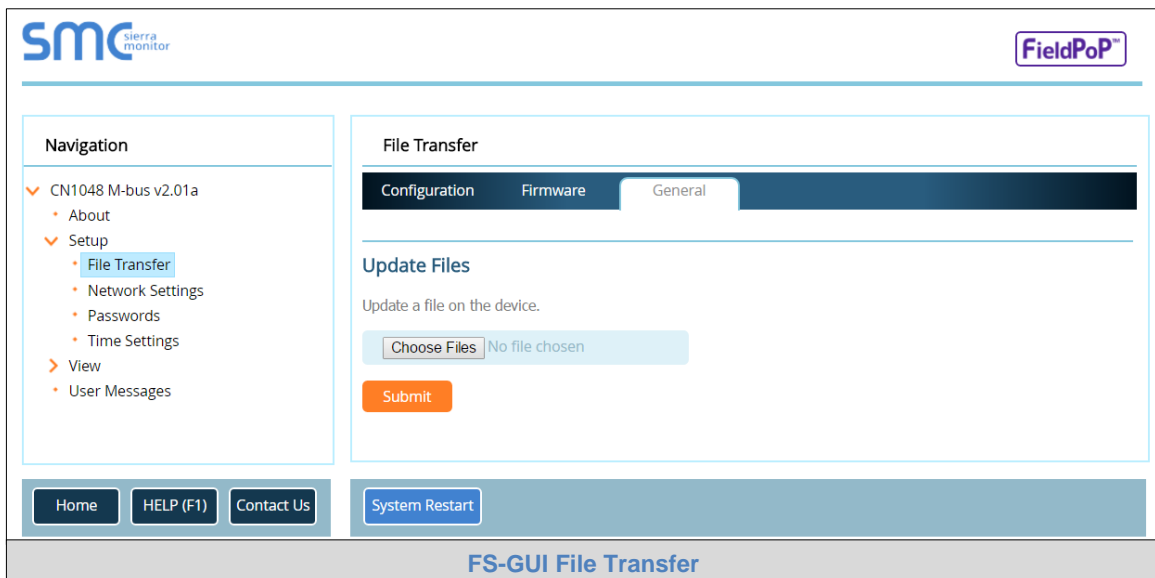

- When prompted, power cycle the unit.

- When the unit boots back up, open a web browser.
- In the address bar, type the IP Address of the FieldServer to open the FS-GUI landing page.

NOTE: If the Web Configurator page appears instead of the FS-GUI landing page, click the **Diagnostics & Debugging** button in the bottom right corner to open the FS-GUI page.

- In the Navigation Tree on the left hand side, do the following
 - Click on Setup
 - Click on File Transfer
 - Click on the General tab
- In the General tab, click on Browse and select the .img file.
- Click on submit.
- When the download is complete, click on the System Restart button.

Technical Support

Thank you for purchasing the FieldServer from Sierra Monitor Corporation.

Please call us for any technical support needs related to the FieldServer product.
